

Transport guide

- Guide can be retrofitted onto Lean and XLean conveyor tracks
- Can be combined with all XLean and Lean conveyor media

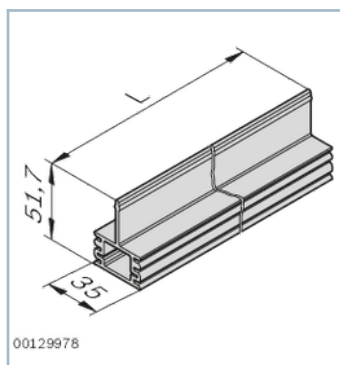

- The T-shaped cross section allows both sides to be used as a lateral guide and a slide rail
- Use of both sides means lower space requirements
- Can be lowered underneath the conveyor track by turning the transport guide by 180°
- Mount for increased stability

Product description

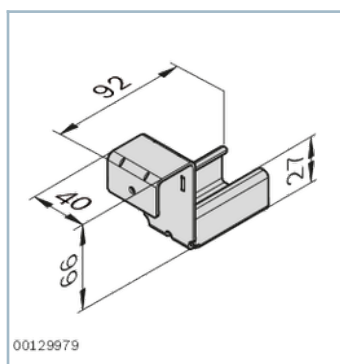

Flow rack systems

Dimensions

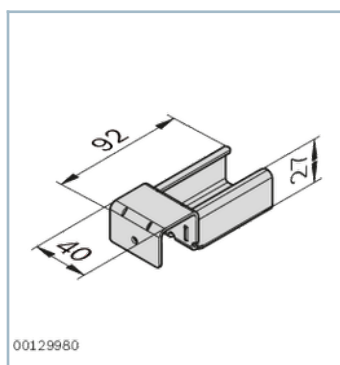

Polymer profile

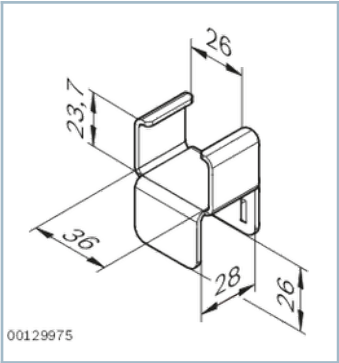

Rail holder with stop

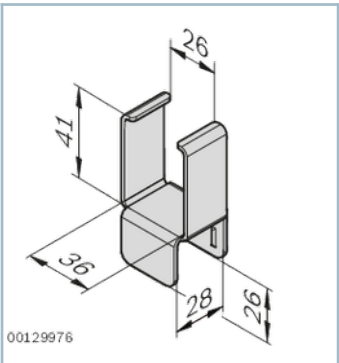

Rail holder without stop

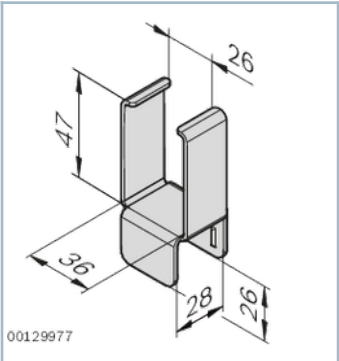

XLean mount

Mount Lean for RT, RTW, DRT

Mount Lean for DRT with holder for double round tube
