

## Longitudinal end connection

- Seal for end-to-end connection of profiles carrying compressed air
- Profile finishing: through-hole D17 (45x90, 45x180); blind hole LF (90x90L)
- For a maximum pressure ( $p_{\max}$ ) of 8 bar

## Product description

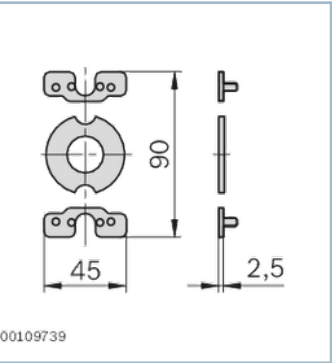

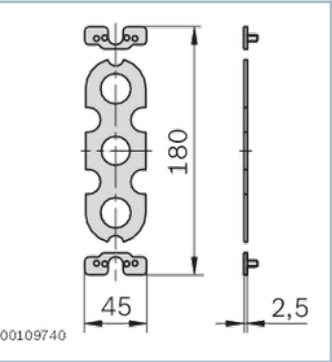

Air-supply elements

## Dimensions

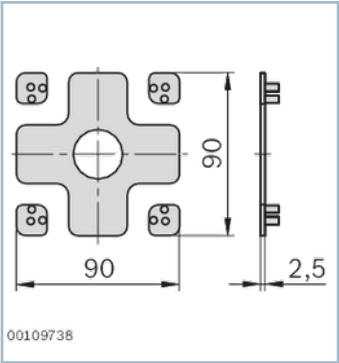

### Longitudinal end connection 45x90

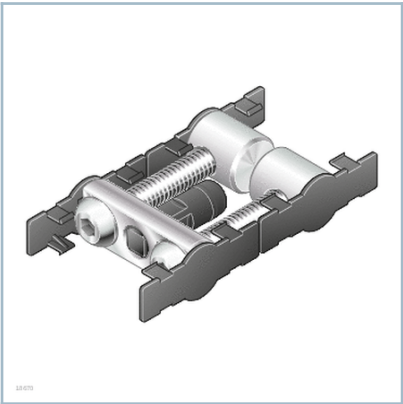

### Longitudinal end connection 45x180

Longitudinal end connection 90x90

Accessories

Longitudinal end connector

- For the end-to-end connecting of two profiles
- Through hole D17 (two-sided longitudinal end connector)
  - Blind hole DB17 or through-hole D17 (end connector on one side)
