- Anchoring with floor dowel

21 001

Product description

Dimensions

Technical drawing of a 4-hole plate (4-Loch-Platte) showing front and top views with dimensions in mm.

Material Specifications:

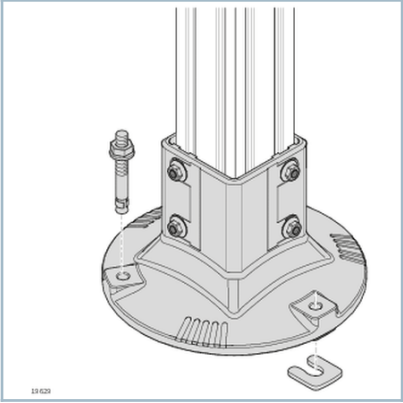

- Top Left: 10 10 45
- Top Right: 10 10 60

Dimensions:

- Front View:**
 - Overall width: 110
 - Overall height: 110
 - Distance between hole centers (vertical): 30
 - Distance between hole centers (horizontal): 22,5
 - Radius of the top edge: 15
 - Hole diameter: $\varnothing 9$
- Top View:**
 - Overall width: 120
 - Overall height: 120
 - Distance between hole centers (vertical): 30
 - Distance between hole centers (horizontal): 22,5
 - Distance from hole center to edge (horizontal): 13

This image displays three stainless steel fasteners. On the left is a hex nut with a wide, flat base. On the right are two T-bolts, which have a threaded shaft and a T-shaped head. The T-nut is a separate component with a T-shaped hole for the bolt to fit through.

- Secure, conductive connection
- Notch at bolt end as marker for identifying correct position
- Profile finishing: not required

Floor dowel, washer

- For anchoring the base plates
- For leveling on uneven flooring
