

Spring Pull

- Spring pull for the ergonomic supply of tools, e.g. screwdrivers, to reduce uneven and high strain on workers
- Spring pull with retractable cable for the ergonomic supply of air-powered tools, e.g. pneumatic screwdrivers, to reduce uneven and high strain on workers

- The bearing load and cable length are adjustable
- Assembly at workstation with hanger and trolley or slide hanger
- Spring pull with retractable cable
- Compressed air supplied via air bar
- Compressed air connection for feed line and tool connection: G1/4"

Product description

Hanger spring pull

Dimensions

Spring pull for load-bearing capacities of between 0.4 and 2.0 kg

Ordering parameter with configurable material number

		3842520053	3842520054	3842520055	3842520056
--	--	------------	------------	------------	------------

Spring pull for load-bearing capacities of between 2.0 and 4.0 kg

Spring pull with retractable cable
