

SOFTWARE LICENSE AMS 2.0 1AGV,Y1,+REL.

Software license AMS, 1-year license, per vehicle

- ▶ Creation of transport jobs from source to destination
- ▶ Simple and intuitive operation
- ▶ Creation of configurable job templates for complex work sequences
- ▶ Provision of configurable battery management for the entire fleet
- ▶ Efficient processing of transport jobs via integrated logistics functions
- ▶ Standard interfaces (Rest API/Websocket)

AMS is a comprehensive piece of software for fleet and task management which now offers even greater degrees of freedom. In addition to simple transport jobs from the source to the destination, complex work sequences can also be created by means of configurable job templates.

In addition to that, AMS offers configurable battery management for the entire fleet. Integrated logistics functions for efficient processing of transport jobs.
