

Heavy-duty connector 180x180 dynamic load

- Heavy-duty connector for reliable absorption of high forces
- Can be used for both static and dynamic forces
- Connection possible in any position
- Profile finishing: not required
- Calculation program for static and dynamic forces included in MT*pro* engineering software

- Focus profile: 90x90, 90x180, 90x360
- Mounting kit
- For connecting a heavy-duty angle to a profile
- Set consists of 4 sliding blocks and 12 screws with washers
