

Accumulation Roller Chain Vplus

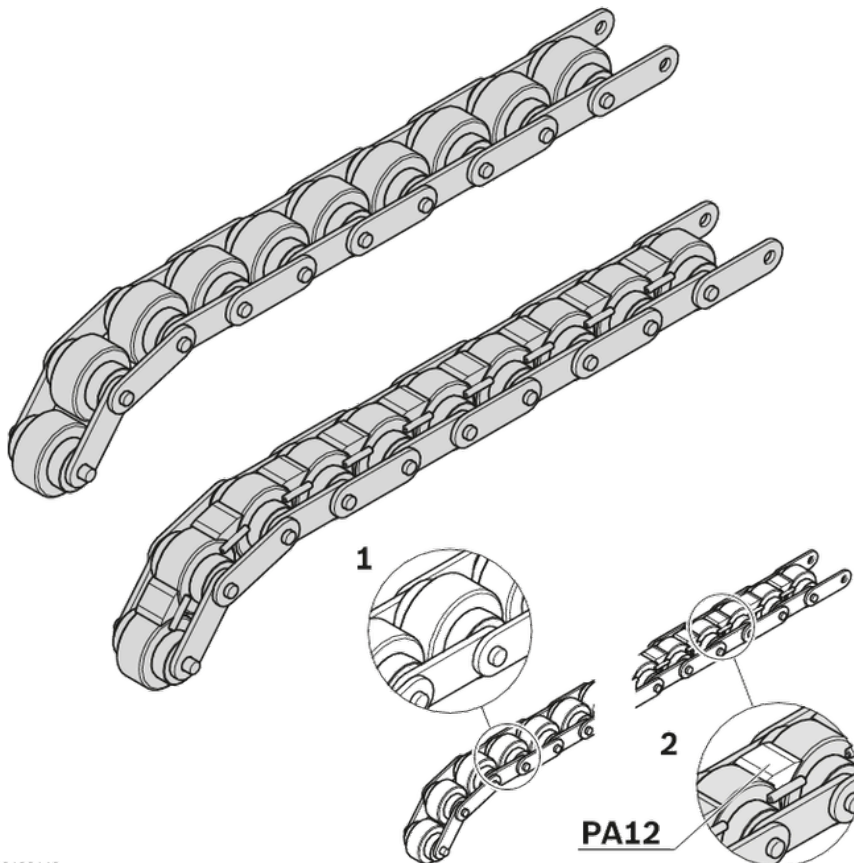

- Conveyor medium for the workpiece pallets of the TS *2plus* system
- For conveyor unit self-assembly

- Can be combined with ST 2/R-V and ST 2/R-H conveyor units
- Delivered in units of up to 12,000 mm. Lengths of $l > 12000$ mm can be produced by connecting several accumulation roller chains using master links
- Chains are available with small parts protection (= filler pieces in the accumulation roller chain prevent small parts from pinching)
